AF70 WIRELESS POS

AF70 Wireless POS, simple and fashionable appearance. As a high cost-effective wireless sweep POS, it collects the hardware capabilities of bank card and sweep payment to better meet the product needs of third-party payment, bank, aggregate payment and other customers in the market. AF70 supports GPRS communication, WIFI communication, 2.4 Inch Touch color screen, electronic signature, built-in contactless IC module, UnionPay cloud flash payment, Apple Pay and other mobile payment. 2600 mAh large capacity lithium batteries and 40 mm diameter cartons help businesses easily get through the peak trading period. One dimensional code, two-dimensional code scanning camera, with scalable base, LCD screen can support WeChat, Alipay, UnionPay code and other platforms of the two-dimensional code sweep and sweep transactions. Supporting national security algorithm, with complete industry certification, can be widely applied to most payment scenarios.

AF70 WIRELESS POS

Advantages

- Support the acceptance of magnetic stripe card, contact IC card and non-contact C card

- Supports NFC payments for mobile devices like Apple Pay

- Large capacity battery, ultra-low power consumption

- High Speed Silent Thermal Printing, 40MM Diameter Carton

- Scanning of one-dimensional code and two-dimensional code

- GPRS Communication, WIFI Communication,bluetooth

- Supporting Hardware State Secret Algorithms

- Self-contained attack detection mechanism, multiple anti-demolition and self-destruction mechanism

Specifications

Processor
> 32-bit secure CPU

Display
> 2.4-inch TFT touch screen, supporting electronic signature

Keypad
> 10 numeric/alphabetic keys,
5 functional keys

IC Card Reader
> Compliance with EMV2000 and PBOC3.0 specifications

Magnetic card reader
> 1/2/3 track, two-way card swipe

Contactless Card Reader
> Compliance with EMV Specification

Scanner
> One-Dimensional Code
Two-Dimensional Code

Printer
> Thermal Printer, Paper Width: 58mm
Outer Diameter: 40mm

Card Slots
> 2 SIM cards, 1 SAM card

Communication
> WIFI,bluetooth,GSM/WCDMA

Physical
> Micro USB

Environmental
> Operating temperature :0C~50C
> Relative humidity :10%~93% (non-condensing)
> Stock temperature: -20c ~70C

Security
> DUKPT, 3DES encryption, PIN encryption, ANSI X9.9 / X9.19 Mac

Battery
> 3.7v lithium battery,2600mAh

Voltage
> Input: 100 v ~ 250 vac, 50 hz / 60 hz, 0.2 A

Certification
> EMV L1 & L2
PBOC L1 & L2
QPBOC/QUICS authentication
PAYPASS/payWave Authentication
PCI PTS Authentication
